

Información de Ayuda

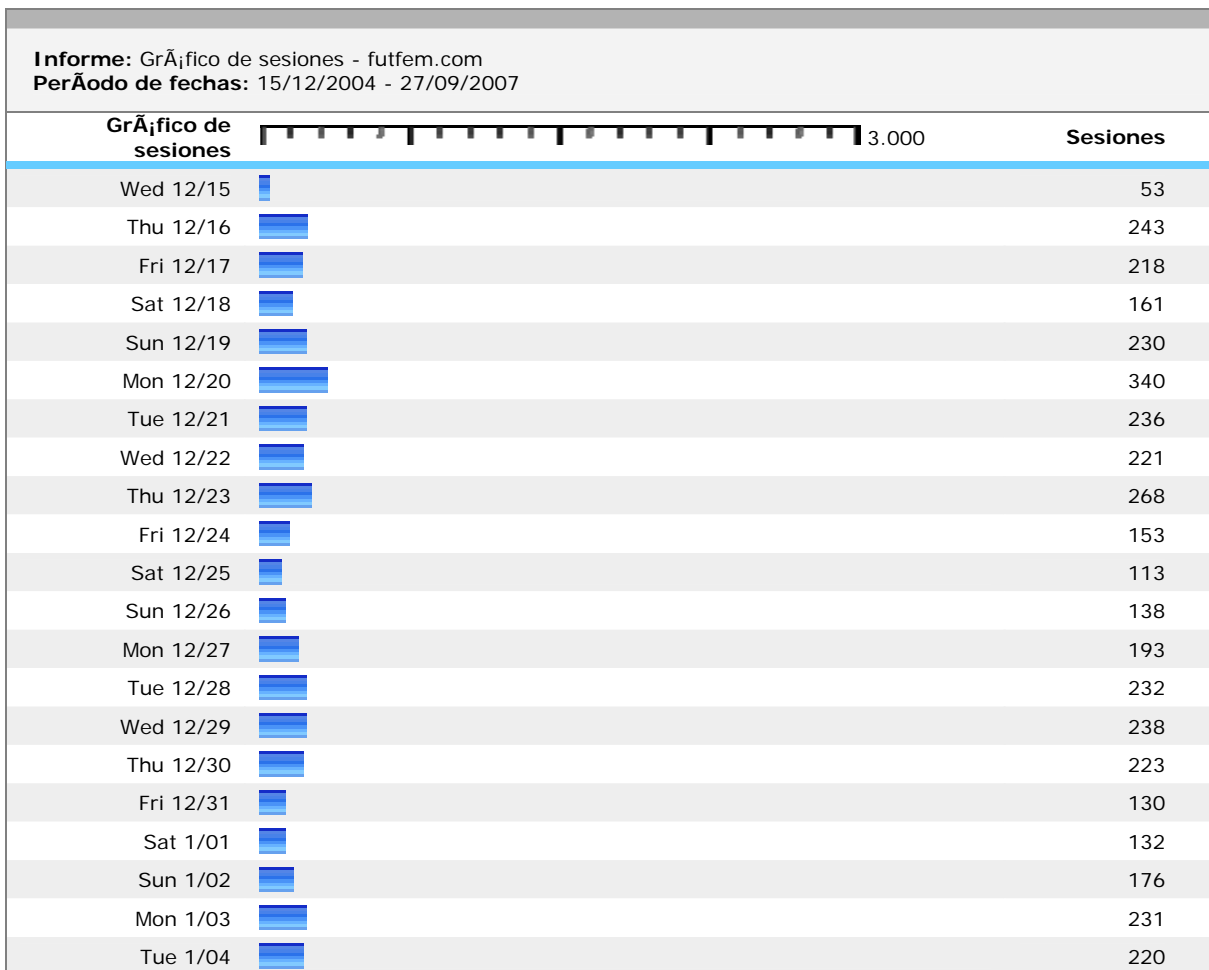

Gráfico de sesiones

Este informe muestra la tendencia de la actividad reciente en su sitio Web en términos de sesiones de visitantes en el tiempo. El marco de tiempo predeterminado es de una semana, pero esto se puede cambiar fácilmente en el Área de control de intervalo de fechas.

Metodología de cálculo

Una 'Sesión' se define como una serie de clics en su sitio por parte de un visitante individual durante un lapso especificado de tiempo. Una sesión se inicia cuando el visitante llega a su sitio, y termina cuando se cierra el explorador u ocurre un período de inactividad. Las cantidades de sesiones varían hasta cierto grado dependiendo del tipo de método de rastreo de visitantes que se utilice. Para obtener los números más exactos, se recomienda el uso del Módulo de Rastreo Urchin (UTM).
